

Neutering campaign in Northern Cyprus, 11–17 May 2026

Dear colleagues,

We have once again been able to arrange a large-scale neutering campaign for the week of 11–17 May 2026 in cooperation with the authorities in Nicosia and the Veterinary Office of Northern Cyprus. We are now looking for volunteers to help with this campaign.

Programme

11 May 2026	Arrival
12–16 May 2026	Operation days
17 May 2026	Departure

Alternative:

9 May 2026	Arrival
10-11 May 2026	Holiday with separate excursions according to your wishes, as a team or individually (beach, Carpaz region to see the donkeys and turtles, ghost town of Famagusta, guided hikes, etc.)

Costs

The costs for flights, transport in Cyprus and accommodation will be covered by NetAP and Hundehilfe Goldinger, while meals during the operation days will be provided by the municipality of Nicosia. You will only incur costs for travel to the airports, individual excursions and any meals outside of the operation days. The team excursions we organise for this option are free of charge (private sponsor).

Goal

Neutering of 40 dogs and 60 cats per day. Most of the animals will be female. To a lesser extent, education and training for veterinarians.

Requirements, Team

Veterinarians

Given our ambitious goal, we are dependent on the majority of participants being experienced, seasoned veterinarians. However, if enough experienced vets sign up, we

will also set up a table where inexperienced vets can improve their skills in collaboration with an experienced vet. Inexperienced vets must be prepared to help in other areas such as preparation and recovery and to share the training place with others.

TPA

Vasta training is an advantage, but not a requirement. There are various areas of work, depending on your interests and skills.

Others

Ideally, we would like someone who can come along as a photographer and social media worker. As this is a very large-scale campaign, reporting would be an advantage.

Registration

0041 79 788 26 70 (also WhatsApp)

I am also happy to provide you with information in person. I can only make detailed plans once we have put the team together.
